Cutimed® DebriClean

In chronic wounds, devitalised tissue and biofilm forms a physical barrier that inhibits the formation of new tissue. For the wound to heal properly, the devitalised tissue and biofilm must be removed. The Cutimed® DebriClean pad has been specially designed to support the mechanical debridement process and lead to more effective wound healing.

- An innovative, safe and effective debridement pad (9 x 13cm)
- White, looped mono-filament fibres, for gentle debridement
- Blue, more abrasive fibres for a stronger debridement option (if required)
- Pack of 5

Cutimed® DebriClean (5)

Leucillin

Leucillin is an anti-bacterial, anti-viral and anti-fungal solution, that kills up to 99.99999% of germs. Leucillin is the most powerful, non-toxic, non-irritant antiseptic available.

- Works in harmony with the body's immune system
- Contains no steroids, antibiotics or alcohols
- Non-toxic and skin pH neutral
- Does not sting, irritate or require rinsing
- Contains the active ingredient: Hypochlorous

Manuka Honey - Gel & Dressings

Medihoney® 100% Medical Honey

Medihoney® is 100% pure, medical-grade Manuka Honey, in a sealable and reusable tube.

- A totally natural product, which is 100% pure, medical-grade Manuka Honey
- Effective against biofilms due to MGO content being above 355mg/Kg
- Adjust pH range to 3-4 creating an ideal environment
- Can be applied directly to minor wounds, cuts and abrasions
- The sealable tube can be used for up to 4 months from opening (single patient use)

100% Medical Honey	08-2120	20g	£4.51
	08-2125	50g	£11.31

Medihoney® Gel Sheet

The gel sheet is a unique dressing that unites the benefits of antibacterial Leptospermum (Manuka) Honey and sodium alginate. These ingredients are combined using a patented technology to create a honey dressing, with a unique texture. It dissolves into a soft gel when in contact with exudate, providing optimal environmental conditions for wound healing.

- A sterile, non-adherent wound dressing
- Forms a soft gel when in contact with exudate

Gel Sheet	08-2060	5 x 5cm	£2.24
	08-2065	10 x 10cm	£5.40

Medihoney® Antibacterial Medical Honey Gel

Medihoney® Antibacterial Gel is formulated from 100% medical-grade Manuka Honey, combined with 20% natural plant waxes, in a sealable, reusable tube. The gel formula retains superior consistency, making dressing changes more manageable and reduces the possibility of surrounding skin maceration.

- A totally natural product which contains 100% pure, medical-grade Manuka Honey
- Effective against biofilms due to MGO content being above 355mg/Kg
- Adjusts pH range to 3-4 creating an ideal environment
- Can be applied directly or onto a suitable dressing
- The sealable tube can be used for up to 4 months from opening (single patient use)

Antibacterial Medical Honey Gel	08-2130	10g	£3.07
	08-2135	20g	£4.59

Medihoney® Tulle Dressing

The Medihoney® Tulle 3-Ply Dressing delivers honey in a convenient way, providing antibacterial action. The dressing allows the passage of exudate, creating a supportive microenvironment and an antibacterial barrier.

- Antibacterial Leptospermum (Manuka) Honey (minimum 20g)
- Non-adherent
- A triple-layered dressing, which can be unfolded or cut to size, to deliver appropriate levels of honey

Tulle Dressing	08-2070	5 x 5cm	£1.97
	08-2075	10 x 30cm	£3.48

Manuka Honey - Gel & Dressings

Medihoney® Apinate Dressing

The Medihoney® Apinate Dressing combines antibacterial Leptospermum (Manuka) with a calcium alginate fabric, creating an effective antibacterial barrier dressing. The osmotic action assists the natural cleaning processes, by drawing unwanted elements into the dressing, thus providing optimal environmental conditions.

- Antibacterial Leptospermum (Manuka) Honey impregnated into a calcium alginate dressing
- A sterile, non-adherent dressing
- Protects delicate tissue
- Dependant on exudate, can be left in place for up to 7 days
- Absorbs exudate to form a soft, Leptospermum (Manuka) Honey gel

Apinate Dressing	08-2085	5 x 5cm	£2.29
	08-2090	10 x 10cm	£4.62
Apinate Rope Dressing	08-2080	2 x 30cm	£4.80

Medihoney® Barrier Cream

Medihoney® Barrier Cream can be applied to intact and at-risk skin, to provide protection from bodily fluids and moisture-associated skin breakdown.

- Made with medical-grade, antibacterial Manuka honey
- Formulated to provide a dry-to-touch layer, to protect skin from damage caused by friction and shear, allowing adhesive dressings to be used effectively
- Designed to dry quickly, allowing the skin to remain breathable, which helps to prevent maceration
- Protects skin at risk for moisture damage

Barrier Cream	08-2115	50g	£6.17
---------------	---------	-----	-------

Medihoney® HCS

Medihoney® HCS is an all-in-one dressing, combining the unique properties of medical-grade Manuka Honey with a hydrogel sheet.

- Promotes a moisture-balanced environment
- The gentle release of honey into the wound provides a low pH environment
- Absorption of exudate into the dressing creates a solid gel
- A highly flexible, transparent dressing that offers a soothing and cooling effect on application, improving patient comfort
- Atraumatic removal minimises disruption to the wound, reducing pain

HCS	08-2095	6 x 6cm	£2.87
	08-2100	11 x 11cm	£5.74
HCS with Adhesive Border	08-2110	7.2 x 7.2cm	£3.93

Activon®

Activon® Manuka Honey is filtered and sterilised, making it suitable for application to wounds. Ideal for debriding necrotic tissue or for topping up dressings, where the honey has been washed away by exudate. Great for using in cavities, just wash away with saline solution.

- Effectively kills harmful bacteria
- Eliminates odours without masking them
- Osmotic effect, drawing harmful tissue away from the wound bed
- Maintains the ideal moist wound healing environment
- Non-toxic

Tube	08-1660	25g	£3.96
------	---------	-----	-------

Manuka Honey - Gel & Dressings

Algivon®

Algivon® is a soft, alginate dressing impregnated with 100% medical-grade Manuka Honey. The alginate fibers enable a sustained, slower release of honey. Algivon® is an ideal choice for wetter wounds as the alginate has a small capacity to absorb, meaning the honey isn't washed away with exudate, therefore, staying at the wound site for longer. The dressing is very soft and conformable, ideal for cavities and debriding and de-sloughing large areas of necrotic and sloughy tissue.

- Aids in the reduction of bioburden
- Osmotic effect, drawing harmful tissue away from the wound bed
- Maintains the ideal moist wound healing environment

Algivon® (5)	08-1680	5 x 5cm	£17.70
	08-1685	10 x 10cm	£30.35

Algivon® Plus

Algivon® Plus has reinforced alginate fibres enabling a sustained, slow release of honey, whilst maintaining the integrity of the dressing. Algivon® Plus is an ideal choice for wetter wounds as the alginate has a small capacity to absorb, meaning the honey is not washed away with exudate.

- Aids in the reduction of bioburden
- Osmotic effect, drawing harmful tissue away from the wound bed
- Maintains the ideal moist wound healing environment
- Ability to absorb exudate

Algivon® Plus (5)	08-1690	5 x 5cm	£17.50
	08-1695	10 x 10cm	£30.00

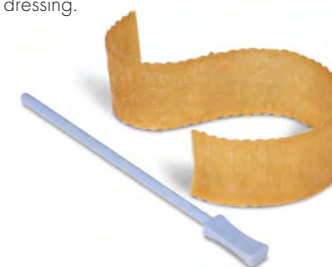

Algivon® Plus Ribbon

Algivon® Plus Ribbon- Reinforced Algivon® is anatomically shaped to fit easily and effectively within cavities and sinuses, providing slow release of honey, whilst maintaining the integrity of the dressing.

- Alginate dressing impregnated with 100% Manuka honey
- Anti-bacterial and anti-inflammatory
- Eliminates odours without masking them
- Osmotic effect, drawing harmful tissue away from the wound bed
- Maintains the ideal moist healing environment
- Quick acting de-bride and de-sloughing of wounds
- Ideally paired with the Eclipse® range to manage wound exudate

Algivon® Plus Ribbon (5)	08-1700	£30.00
--------------------------	---------	--------

Actilite®

Actilite® is a light, non-adherent, non-sticky dressing, ideal for infection prevention. This dressing combines Manuka Honey and Manuka Oil. The dressing is best suited for delicate tissue and skin grafts.

- Aids in the reduction of bioburden
- Osmotic effect, drawing harmful tissue away from the wound bed
- Maintains the ideal moist wound healing environment

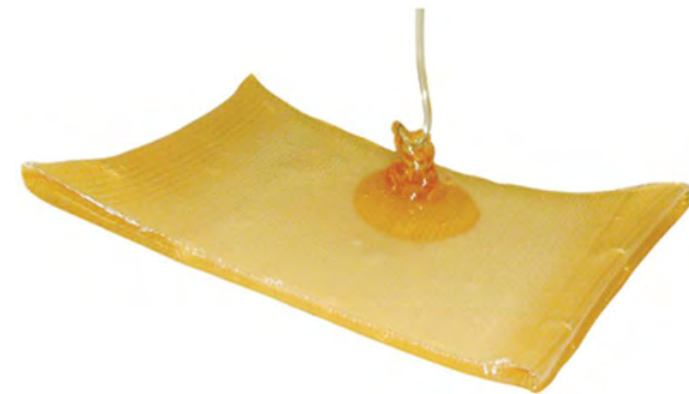

Actilite® (10)	08-1630	5 x 5cm	£10.10
	08-1635	10 x 10cm	£17.60
	08-1640	10 x 20cm	£34.00
	08-1645	20 x 30cm	£95.70
Actilite® (5)	08-1650	30 x 30cm	£79.15
	08-1655	30 x 60cm	£136.80

Activon® Tulle

Activon® Tulle is a triple-layer, knitted, viscose net dressing, which can be folded to decrease the amount of honey if any discomfort is being experienced. Note: Activon® releases honey at a slower rate into the wound therefore may be a solution if discomfort is being experienced by the animal when using Activon® Tulle.

- Aids in the reduction of bioburden
- Osmotic effect, drawing harmful tissue away from the wound bed
- Maintains the ideal moist wound healing environment
- Activon® Tulle creates a moist healing environment, it is a good choice when debriding or de-sloughing small areas of necrotic or sloughy tissue

Activon® Tulle (5)	08-1670	5 x 5cm	£16.05
	08-1675	10 x 10cm	£26.50

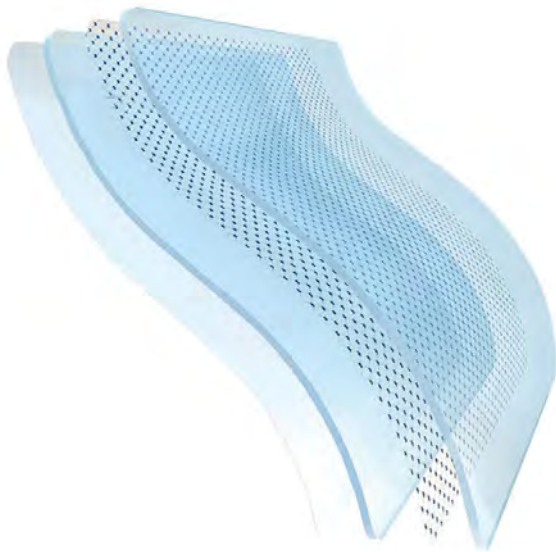

Hydrogel Dressings

Purfect ProCare® + Hydrogel Dressing

Purfect ProCare+ Hydrogel Dressing is indicated for minimal exudative and dry wounds. The dressing can absorb a minimum amount of fluid by swelling, but also has the ability to donate moisture to the wound. The hydrogel dressing is constructed of a semi-transparent flexible gel. This cool and comfortable dressing provides optimal conditions for tissue granulation and epithelisation.

- Non-adhesive to the wound, no residue and pain-free removal
- Provides a continual moist environment for wound healing
- Rehydrates and loosens necrotic tissue

Hydrogel Dressing	08-2200	10 x 10cm	£1.56
	08-2205	15 x 15cm	£3.52

Purfect ProCare® + Amorphous Hydrogel

Purfect ProCare+ Amorphous Hydrogel is a colourless, cooling, transparent gel with excellent performance. The non-adherent gel donates moisture to the wound and maintains an optimal environment.

- Cooling and soothing on application
- Easy to apply to all wounds
- Crystal clear transparency, for easy visualisation of application and assessment
- Maintains hydration balance to provide an optimal moist environment

Amorphous Hydrogel	08-2220	15g	£1.90
	08-2225	25g	£2.35

Cutimed® Gel

A clear, amorphous hydrogel which can be used to debride necrotic and sloughy tissue. Easy to apply with the sterile nozzle provided or directly from the tube.

- Compatible with any type of secondary dressing (dependent upon exudate levels)
- Provides moisture to dry wounds

Cutimed® Gel	03-1375	8g	£2.34
	03-1380	15g	£2.61

Cutimed® Siltec

Cutimed® Siltec is a foam dressing, designed to maintain a moist environment in wounds with low to moderate exudate levels.

- Highly absorbent, for excellent fluid absorbency
- Absorption of viscous exudate
- Perforated silicone layer

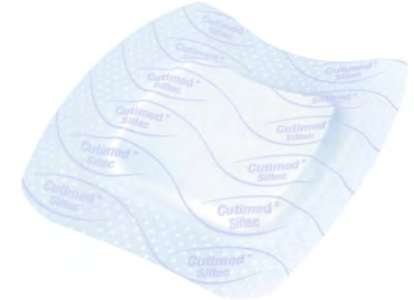

Cutimed® Siltec	08-2445	5 x 6cm	£0.90
	08-2450	10 x 10cm	£1.86
	08-2455	10 x 20cm	£3.17

Cutimed® Siltec B

Cutimed® Siltec B is a foam dressing with a border fixation, designed to maintain a moist environment in wounds with low to moderate exudate levels.

- Highly absorbent, for excellent fluid absorbency
- Absorption of viscous exudate
- Perforated silicone layer

Cutimed® Siltec B	08-2430	7.5 x 7.5cm	£1.76
	08-2435	12.5 x 12.5cm	£3.00
	08-2440	15 x 15cm	£4.00

Allevyn Non-Adhesive Foam Dressing

ALLEVYN Non-Adhesive Foam Dressing is designed to manage a diverse range of chronic or acute wound care requirements.

- Economically efficient
- Designed to manage chronic and acute wounds
- Highly breathable top film
- Non-adherent wound contact layer
- Soft and comfortable

Non-Adhesive Foam Dressing (10)	08-2665	5 x 5cm	£16.31
	08-2655	10 x 10cm	£31.54
	08-2650	10 x 20cm	£51.38
	08-2660	20 x 20cm	£83.08

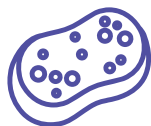

Allevyn Adhesive Foam Dressing

ALLEVYN Adhesive has a unique triple-layer formation, designed to achieve optimal fluid handling, to support moist wound healing. ALLEVYN Adhesive can be used to manage chronic or acute exuding wounds.

- Economically efficient
- Designed to manage chronic and acute wounds
- Low allergy adhesive
- Highly breathable top film

Allevyn Adhesive Foam Dressing (10)	08-2635	12.5 x 12.5cm	£30.31
	08-2640	17.5 x 17.5cm	£67.08
	08-2645	22.5 x 22.5cm	£67.08

Foam Dressings

Advazorb®

A soft and conformable, low adherent, hydrophilic, polyurethane foam dressing, with a breathable film backing.

- Sterile, absorbent foam
- A low friction, bacteria-proof backing
- Soft and conformable
- High fluid retention
- Cushioning effect on wound

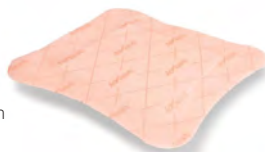

Advazorb® (10)	08-1705	5 x 5cm	£9.30
	08-1710	7.5 x 7.5cm	£11.30
	08-1715	10 x 10cm	£15.60
	08-1730	10 x 20cm	£48.10
	08-1720	12.5 x 12.5cm	£22.90
	08-1725	15 x 15cm	£30.30
	08-1735	20 x 20cm	£54.00

Advazorb® Border

A foam dressing with a self-adhesive border.

- The silicone border prevents the need for a secondary dressing or fixation
- Silicone adhesive combines security with pain-free dressing changes
- The backing is a water-resistant barrier film to prevent strike-through, with a high moisture vapour transfer rate, prolonging wear time
- Dressings comfortably stay in place whilst minimising the potential for maceration
- Pack of 10

Advazorb® Border (10)	08-1830	7.5 x 7.5cm	£17.10
	08-1835	10 x 10cm	£30.30
	08-1850	10 x 20cm	£41.70
	08-1855	10 x 30cm	£61.10
	08-1840	12.5 x 12.5cm	£37.10
	08-1845	15 x 15cm	£45.30

Advazorb® Lite

Advazorb® Lite has all the benefits of the regular Advazorb® but with a thinner foam.

Advazorb® Lite (10)	08-1740	7.5 x 7.5cm	£10.10
	08-1745	10 x 10cm	£14.00
	08-1760	10 x 20cm	£43.40
	08-1750	12.5 x 12.5cm	£20.60
	08-1755	15 x 15cm	£27.10
	08-1765	20 x 20cm	£48.60

Advazorb® Border Lite

Advazorb® Border Lite has all the benefits of the regular Advazorb® Border but with a thinner foam.

Advazorb® Border Lite (10)	08-1860	7.5 x 7.5cm	£15.40
	08-1865	10 x 10cm	£27.10
	08-1880	10 x 20cm	£37.60
	08-1870	12.5 x 12.5cm	£33.40
	08-1875	15 x 15cm	£40.90
	08-1885	10 x 30cm	£55.10

Advazorb® Border Sacral

Advazorb® Border Sacral is a hydrophilic foam, wound exudate management dressing, presented in an ergonomic shape, ideally for the chest (stick injuries) and groin area. It has a soft silicone wound contact layer. The silicone border prevents the need for a secondary dressing or fixation.

- Silicone adhesive combines security with pain-free dressing changes
- The backing is a water-resistant barrier film to prevent strike-through, with a high moisture vapour transfer rate, prolonging wear time
- Dressings comfortably stay in place whilst minimising the potential for maceration
- Pack of 10

Advazorb® Border Sacral (10)	08-1890	17 x 19cm	£71.30
	08-1895	22 x 23cm	£93.60

Advazorb® Silfix Lite

Advazorb® Silfix Lite has all the benefits of the regular Advazorb® Silfix but with a thinner foam.

Advazorb® Silfix Lite (10)	08-1800	7.5 x 7.5cm	£12.90
	08-1805	10 x 10cm	£24.00
	08-1820	10 x 20cm	£41.10
	08-1810	12.5 x 12.5cm	£33.60
	08-1815	15 x 15cm	£43.40
	08-1825	20 x 20cm	£64.40

Advazorb® Silfix

Advazorb® Silfix is an absorbent foam dressing with breathable film backing and a soft silicone wound contact layer. Available in regular and 'Lite' versions. The soft silicone ensures that the dressing does not stick to the wet surface of a wound bed or cause trauma to delicate new tissue upon dressing removal. This is particularly suited to those patients with friable or delicate skin.

- Highly Absorbent
- Soft silicone contact layer
- Suitable for acute and chronic wounds including cuts and abrasions, superficial burns, surgical wounds

Advazorb® Silfix (10)	08-1770	7.5 x 7.5cm	£14.30
	08-1775	10 x 10cm	£26.60
	08-1790	10 x 20cm	£45.70
	08-1780	12.5 x 12.5cm	£37.30
	08-1785	15 x 15cm	£48.30
	08-1795	20 x 20cm	£71.70

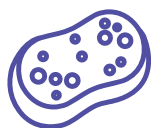

Advazorb® Heel

Advazorb® Heel is a hydrophilic, low-adherent foam dressing, with a breathable film backing, designed to fit around the fetlock, hocks and stifles.

- Sterile
- Bacteria proof backing
- Soft and conformable
- High fluid retention
- Anatomically shaped

Advazorb® Heel	08-1896	£6.83
----------------	---------	-------

Foam Dressings

Purfect ProCare® + Foam Dressing

Purfect ProCare+ Foam Dressing is composed of soft and highly absorbent polyurethane. It absorbs wound exudates and helps to maintain a moist environment, optimal for wound healing. It is especially suitable for excessive exuding wounds.

- Highly absorbent
- Excellent wound exudate absorption, reduces the risk of maceration and leakage
- Comfortable and conformable

Foam Dressing	08-2350	5 x 5cm	£0.41
	08-2355	10 x 10cm	£0.68

Purfect ProCare® + Foam Dressing with PU backing

Purfect ProCare+ Foam Dressing is composed of soft and highly absorbent foam with a PU backing. It absorbs exudate and helps to maintain an optimal moist environment.

- Highly absorbent
- Excellent exudate absorption, reduces the risk of maceration and leakage
- Comfortable and conformable

Foam Dressing with PU backing	08-2140	5 x 5cm	£0.60
	08-2145	10 x 10cm	£0.90

Purfect ProCare® + Silicone Foam Dressing

Purfect ProCare+ Silicone Foam Dressings consist of a gentle silicone wound contact layer, a super absorbent pad layer and a vapour permeable waterproof film. This multi-layered dressing facilitates exudate management to provide an optimal moist wound environment. The silicone layer minimises trauma to the wound and reduces pain during dressing changes.

- Excellent wound exudate absorption, reduces the risk of maceration and leakage
- Minimal trauma to wound and pain free removal
- Maintains its integrity during use

Silicone Foam Dressing	08-2150	5 x 5cm	£0.97
	08-2155	10 x 10cm	£1.88

Purfect ProCare® + Silicone Foam Border Dressing

Purfect ProCare+ Silicone Foam Dressings consist of a gentle silicone wound contact layer, a super absorbent pad layer and a vapour permeable waterproof film. This multi-layered dressing facilitates exudate management to provide an optimal moist wound environment. The silicone layer minimises trauma to the wound and reduces pain during dressing changes.

- Excellent wound exudate absorption, reduces the risk of maceration and leakage
- Minimal trauma to wound and pain free removal
- Maintains its integrity during use

Silicone Foam Border Dressing	08-2160	7.5 x 7.5cm (4.5 x 4.5cm)	£1.33
	08-2165	10 x 10cm (6 x 6cm)	£1.93

Absorbent Dressings

Purfect ProCare® + Super Absorbent Dressing

Purfect ProCare+ Super Absorbent Dressing is an excellent dressing for use on heavily exudative wounds. The dressing consists of a breathable and waterproof backing, a super absorbent pad layer and a hydro-penetrating contact layer. The moisture locking system ensures that exudates are secured within the dressing, reducing the possibility of maceration.

- Excellent exudate management
- Outstanding fluid control
- Non-strike through with bacteria-proof backing

Super Absorbent Dressing	08-2170	7.5 x 7.5cm (6 x 6cm)	£1.00
	08-2175	10 x 10cm (8 x 8cm)	£1.20

Primapore

PRIMAPORE is a conformable adhesive dressing, consisting of a breathable top layer and a low-adherent absorbent pad.

- Soft & conformable
- Wound protection
- Highly absorbent pad
- Low allergy adhesive
- Each dressing is individually wrapped and sterile

Primapore (50)	08-2585	8.3 x 6cm	£8.00
Primapore (20)	08-2590	10 x 8cm	£4.46
	08-2595	15 x 8cm	£5.85
	08-2600	20 x 10cm	£8.62
	08-2605	25 x 10cm	£10.92
	08-2610	30 x 10cm	£10.92

Purfect ProCare® + Silicone Super Absorbent Dressing

Purfect ProCare+ Silicone Super Absorbent Dressing is an excellent dressing for use on heavily exudative wounds. The dressing consists of a breathable and waterproof backing, a super absorbent pad layer, and a hydro-penetrating silicone adherent contact layer. The moisture locking system ensures that exudates are secured within the dressing, reducing the possibility of maceration.

- Excellent exudate management
- Outstanding fluid control
- Silicone contact layer for comfort and pain-free removal

Silicone Super Absorbent Dressing	08-2180	7.5 x 7.5cm (6 x 6cm)	£1.45
	08-2185	10 x 10cm (8 x 8cm)	£1.85

Melolin

A low-adherent absorbent dressing, used for the management of a wide variety of light to moderately exuding wounds, including clean sutured abrasions, wounds, lacerations and minor burns.

- Easy to cut to shape
- Melolin consists of three layers:
 - Non-adherent perforated film
 - Highly absorbent cotton/acrylic pad
 - Hydrophobic backing layer

Melolin (100)	08-2620	5 x 5cm	£11.85
	08-2625	10 x 10cm	£24.92
	08-2615	20 x 10cm	£43.08

Absorbent Dressings

Eclipse®

Eclipse® is a super absorbent dressing with CrystalLock™ technology and non-striethrough backing. The CrystalLock™ layer absorbs exudate and locks it within the dressing to prevent leakage. Infection causing bacteria, and Matrix Metalloproteinases (MMPs), that can stall wound healing, are also locked away with the exudate.

- Rapid absorption
- High capacity
- Fluid repellent backing
- Strength and durability
- Stay dry technology
- Thin and conforming

Eclipse® (20)	08-1900	10 x 10cm	£21.20
	08-1905	15 x 15cm	£28.00
	08-1910	20 x 30cm	£61.80
Eclipse® (10)	08-1915	60 x 40cm	£117.30

Eclipse® Adherent

Eclipse® Adherent is a super absorbent dressing with CrystalLock™ technology, non-striethrough backing, and a soft silicone contact layer. The CrystalLock™ layer absorbs exudate and locks it within the dressing to prevent leakage. Infection causing bacteria, and Matrix Metalloproteinases (MMPs), that can stall wound healing, are also locked away with the exudate.

- High capacity
- Rapid absorption
- Atraumatic soft silicone wound contact layer
- Breathable fluid repellent backing
- Moist wound healing environment
- Moisture locking central core

Eclipse® Adherent (10)	08-1920	10 x 10cm	£43.00
	08-1930	10 x 20cm	£54.00
	08-1925	15 x 15cm	£71.90
	08-1935	20 x 30cm	£143.70

Eclipse® Border

Eclipse® Border is a super absorbent dressing with CrystalLock™ technology, non-striethrough backing, soft silicone contact layer and an adhesive border. The CrystalLock™ layer absorbs exudate and locks it within the dressing to prevent leakage. Infection causing bacteria, and Matrix Metalloproteinases (MMPs), that can stall wound healing, are also locked away with the exudate.

- Increased absorbency capacity
- Atraumatic and hypo-allergenic
- Breathable, fluid-repellent backing
- Provides a moist wound healing environment
- Additional wicking and moisture locking central core
- Unique large adhesive border

Eclipse® Border (10)	08-1940	15 x 15cm	£71.30
	08-1945	20 x 30cm	£112.30
Eclipse® Border Oval (10)	08-1950	10 x 20cm	£62.60
	08-1955	15 x 20cm	£82.70
	08-1960	20 x 30cm	£112.30

Leukomed® Sorbact

Leukomed® Sorbact is a surgical dressing that displays hydrophobic properties, allowing it to irreversibly bind bacteria and fungus to the dressing, this helps to keep the bacterial cell wall intact, allowing for natural wound healing and long-term prevention of infections. It absorbs low-moderate fluid levels and is indicated for surgical incisions, post-operative dehiscent wounds, traumatic wounds and more.

- Helps to minimise the risk of infection
- Breathable and waterproof adhesive film
- Absorbs low-moderate fluid levels

Leukomed® Sorbact	08-2480	5 x 7.2cm	£2.07
	08-2485	8 x 10cm	£4.64
	08-2490	8 x 15cm	£6.94

Leukomed® Control

Leukomed® Control is a unique transparent post-op dressing with a hydropolmer gel pad. Indicated for dry and low exuding acute wounds such as surgical incisions. It is well suited for the control of wounds on patients with an increased risk of infection, due to transparency which allows easy inspection of the wound.

- Ultra-thin and conformable film
- Completely transparent composition
- Allows for early detection of wound infection

Leukomed® Control	08-2495	5 x 7cm	£1.35
	08-2500	7 x 10cm	£2.13
	08-2505	8 x 15cm	£2.30

Leukomed® T Plus

Leukomed® T Plus can be used as a post-operative wound dressing. It is a highly absorbent wound pad, ensuring reliable absorption of secretions. The transparent polyurethane film provides effective protection from water and bacteria. Leukomed® T plus is sterilized and individually sealed.

- All-round suitability for wound dressing
- Reduces the risk of maceration
- A non-adherent layer of the wound pad prevents from sticking to the wound
- A highly absorbent wound pad ensures reliable absorption of secretions

Leukomed® T Plus	08-2460	7.2 x 5cm	£0.36
	08-2465	8 x 10cm	£0.71
	08-2470	8 x 15cm	£1.07
	08-2475	10 x 20cm	£1.79

Purfect ProCare®+ Silicone Post-Operative Dressing

Purfect ProCare+ Silicone Post-Operative Dressing is a soft, highly flexible and absorbent dressing. Composed of a hypoallergenic silicone contact layer, a non-woven wicking layer, a highly absorbent pad and vapor permeable, waterproof film.

- Excellent exudate management for post-operative wounds
- Highly flexible and comfortable
- Minimal trauma for dressing changes
- Does not stick to wounds or sutures

Silicone Post Op Dressing	08-2190	9 x 15cm	£0.98
	08-2195	10 x 20cm	£1.44

Post-op Dressings

Silflex®

Silflex® is a non-adherent dressing made from polyester mesh, coated with soft silicone. It is designed to gently adhere to the skin surrounding a wound and not to the wound bed, this minimises the pain and trauma associated with dressing change. The dressing allows the passage of exudate.

- Non adherent (adheres only to dry surrounding skin, not to a moist wound)
- Atraumatic soft silicone, reduced pain on dressing change
- Soft and conformable
- Allows passage of exudate
- Indicated for skin tears, skin abrasions, lacerations and surgical wounds

Silflex® (10)	08-2035	8 x 10cm	£32.70
	08-2040	12 x 15cm	£65.90
	08-2045	20 x 30cm	£169.70

Opsite Spray Dressing

OPSITE Spray is a transparent and quick drying film which is easy and convenient to apply. The film helps to provide protection for dry, minor surgical and surface wounds.

- Permeable to moisture vapour and air
- Water resistant
- Quick and easy to apply

Opsite Spray Dressing	03-0005	100ml	£13.25
-----------------------	---------	-------	--------

Purfect Procure® + Silicone Tape with Film

Soft silicone tape for easy application, adjustment and removal. Gentle and excellent for fragile skin.

- Soft, comfortable and non-irritating
- Ideal for sensitive and fragile skin
- Minimises pain and trauma on removal

Silicone Tape with Film	08-2210	2 x 300cm	£3.67
	08-2215	4 x 150cm	£3.53

Dermafilm

A film dressing providing wound protection with visibility. It can be used at the site of IV catheters as an alternative to tape.

- Sterile
- Self-adhesive
- Transparent

Dermafilm Dressing	11-5705	8 x 6cm	£0.54
	11-5710	14 x 10cm	£1.01

Fastaid Zinc Oxide Tape

Fastaid is a non-stretch tape that is an ideal solution for securing dressings.

- Ideal for securing dressings, catheters and tubes in place
- Available in 3 sizes

Fastaid Zinc Oxide Tape	08-1000	1.25cm x 5m	£1.08
	08-1005	2.5cm x 5m	£1.49
	08-1010	5cm x 5m	£2.79

Siltape®

Siltape® is made from soft silicone, which is gentle on the skin, this is particularly useful for animals with fragile skin. Silicone does not pull strip in the same way that other adhesives may do, this prevents tissue damage.

- Designed to be kind on removal
- Soft and conformable
- Easily adjustable, with no loss of adherence

Siltape®	08-1970	2cm x 3m	£8.06
	08-1975	4cm x 1.5m	£8.06

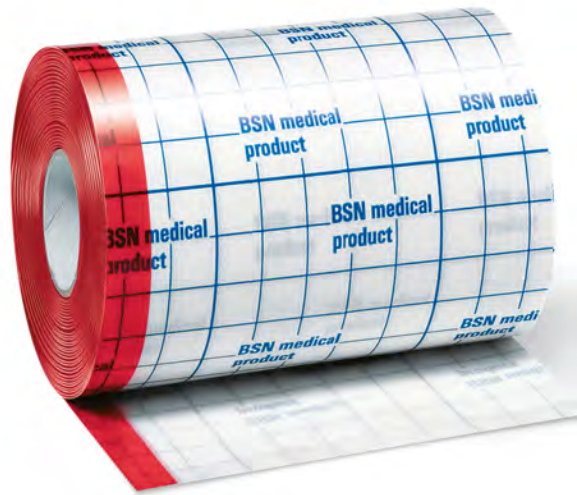

Tapes & Alternatives

Hypafix®

Hypafix® is a self-adhesive, wide-area, dressing fixation. It can easily be cut to the shape and size required. It is designed to be highly conformable and easy to apply, even on difficult areas of the animal.

- Low-allergy adhesive
- Air and moisture vapour permeable
- Good initial and long-term adhesion

Hypafix® Transparent	08-2510	5cm x 10m	£19.11
	08-2520	10cm x 2m	£11.46
	08-2515	15cm x 10m	£33.37

3M Micropore Surgical Tape

A latex-free and hypoallergenic tape for sensitive patients.

- Highly breathable to maintain skin integrity
- Holds well on damp skin for secure placement
- Gentle to skin

3M Micropore Surgical Tape	08-0016	1.25cm	£0.26
	08-0015	2.5cm	£0.57
	08-0017	5cm	£1.05

3M Durapore Surgical Tape

A strong, silk-like fabric backing tape.

- High adhesive strength allows for use on challenging applications
- Resists stretching
- Hypoallergenic

3M Durapore Surgical Tape	08-0011	1.25cm	£0.53
	08-0010	2.5cm	£1.15
	08-0012	5cm	£2.12

Cotton Wool

All-purpose BP Grade Cotton Wool, containing strong fibres that easily permeate traces of moisture.

- Made from 100% pure cotton
- Soft and gentle to the skin
- Highly absorbent
- 500g roll

Cotton Wool	08-0385	500g	£3.30
-------------	---------	------	-------

Soffban® Eco Synthetic Padding

A synthetic padding made from 100% polyester. Ideal for use under bandages, synthetic casts, and plaster of Paris.

- Soft and highly conformable, with odour controlling agent
- Maximum loft retention for excellent cushioning
- Easy to tear

Soffban® Eco Synthetic Padding (12)	08-2375	5cm x 2.7m	£3.79
	08-2380	7.5cm x 2.7m	£5.43
	08-2385	10cm x 2.7m	£6.57

3M Synthetic Under Padding

A non-woven polyester padding that is porous, highly conformable and strong, yet easy to tear.

- Conforms easily to body contours
- Porous to allow the skin to breathe
- Versatile padding that can be used with all bandaging materials
- Available in 5cm or 7.5cm widths

3M Synthetic Under Padding	08-0020	5cm	£3.60
	08-0025	7.5cm	£5.22

Advasoft®

A soft wadding bandage with excellent moisture handling and absorbency, that provides a high degree of pressure distribution and resistance to forces, when exerted under compression.

- Comfortable and conformable
- Easy to tear
- Pack of 6

Advasoft® (6)	08-1965	10cm x 3.5m	£4.62
---------------	---------	-------------	-------

Bandages

WOW Bandages

WOW Bandages are white cotton bandages, that are ideal for securing wound dressings and ET tubes in place. The bandage does not contain elastic and will not constrict wounds.

- Made from cotton
- Non-stretch

WOW Bandages (12)	08-1415	2.5cm x 5m	£2.64
	08-1420	5cm x 5m	£4.14
	08-1425	7.5cm x 5m	£5.86

K Band Conforming Bandage

K-Band is a conforming and retention bandage.

- Has 2-way stretch for ease of application
- Available in 3 sizes
- Pack of 20

K-Band (20)	08-2360	5cm x 4m	£6.09
	08-2365	7cm x 4m	£7.55
	08-2370	10cm x 4m	£8.42

Esmarch Bandage

The Esmarch Bandage is a soft rubber bandage, that is used to expel venous blood from a limb (exsanguinate) that has had its arterial supply cut off by a tourniquet.

- Non-sterile
- Useful as a tourniquet

Esmarch Bandage	12-0595	7.6cm x 3.2m	£52.82
	12-0585	13cm x 3.2m	£67.20
	12-0590	15cm x 3.2m	£66.67

Easifix K

Easifix K is an open-knitted bandage that is lightweight, soft and breathable. The bandage is also highly elastic and flexible.

- Ideal for securing dressings
- Has lengthways elasticity and sideways stretch
- Fits all body contours

Easifix K (20)	08-2420	2.5cm x 4m	£2.58
	08-2415	5cm x 4m	£3.13
	08-2425	7.5cm x 4m	£4.39
	08-2410	10cm x 4m	£4.98

Tensoplast®

Combining a specially formulated porous adhesive and a superior woven cloth, Tensoplast® provides an unrivalled level of quality performance, trusted patient comfort and compliance.

- A high-quality extensible fabric, made of high-twist cotton yarns
- Superior stretch and regain properties provide good conformability
- Allows skin to breathe
- Comfortable application

Elastic Adhesive Bandage BP	08-2395	2.5cm x 4.5m	£2.26
	08-2400	5cm x 4.5m	£3.50
	08-2405	7.5cm x 4.5m	£4.54
	08-2390	10cm x 4.5m	£4.74

Aniwrap™ Cohesive Bandage

Aniwrap™ is a vibrant range of cohesive bandages, offering a selection of colours and patterns at competitive prices.

- Easy to tear
- Lightweight and flexible
- Available in 5cm and 7.5cm
- Pre-stretched length 2.2m (stretches to 4.5m)

Aniwrap™ Cohesive Bandage – Plain	5cm	£0.56
	7.5cm	£0.79
Aniwrap™ Cohesive Bandage – Patterned	5cm	£0.70
	7.5cm	£1.00

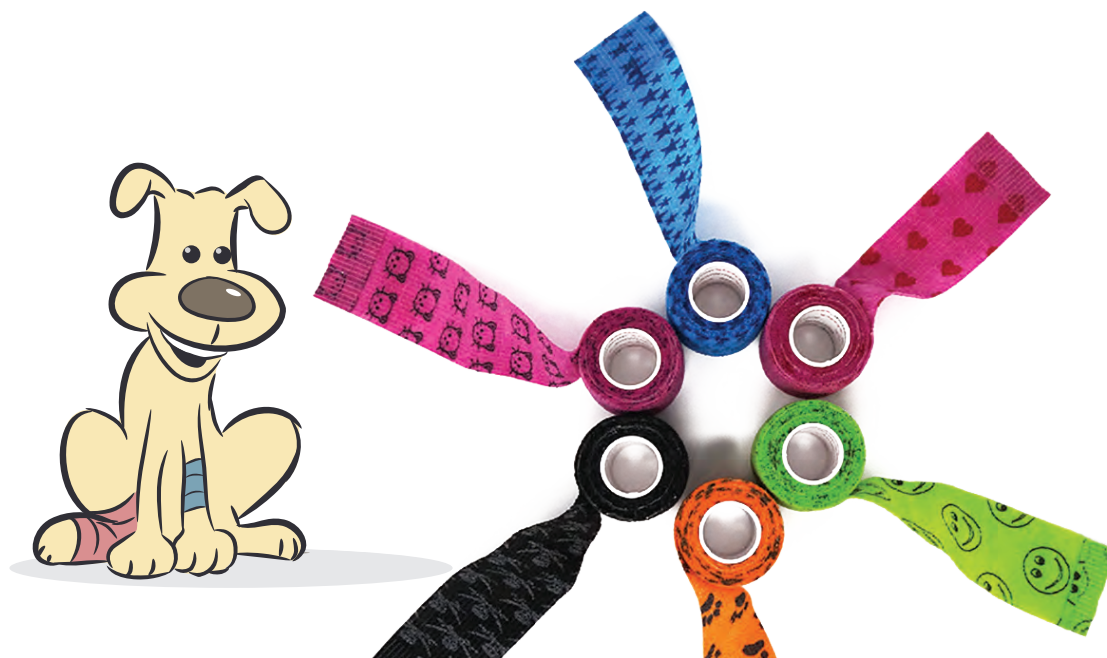

Aniwrap™ Sketch Reverse Wound Cohesive Bandage

AniWrap™ Sketch is a REVERSE WOUND cohesive bandage with all the benefits of the original AniWrap™.

- Available in six vibrant colours and patterns
- Super flexible, lightweight & easy to tear
- Available in 5cm and 7.5cm
- Pre-stretched length 2.2m (stretches to 4.5m)

Aniwrap™ Sketch Cohesive Bandage	5cm	£0.80
	7.5cm	£1.10

Splints

Gutter Splint

A disposable splint, that can be used for fracture management and immobilisation of limbs.

- Lightweight and durable plastic
- A comfortable foam padding inner
- Can be cut to size to fit the animal's limb
- Air holes along the length of the splint allow breathability

Gutter Splint	08-1060	Blue - Small 20cm	£3.72
	08-1055	Red - Medium 30cm	£3.98
	08-1050	Green - Large 40cm	£5.41

Caerus™ Starter Kit

- Caerus™ Starter Kit - Includes:
 - Caerus™ Splint with Padding 5 x 25cm x 2
 - Caerus™ Splint with Padding 7.5 x 30cm x 2
 - Caerus™ Splint with Padding 10 x 33cm x 2
 - Caerus™ Splint with Padding 12.5 x 33cm x 2
 - Caerus™ Splint Slimline Heater
- A fast and efficient replacement for traditional splints and casting kits
- Made of advanced, low heat thermoformable plastic
- Radiolucent and easy to trim to specification
- Mouldable after only 3-5 minutes
- Reduces prep and application time

Caerus™ Starter Kit	08-2030	£150.00
----------------------------	---------	----------------

Caerus™ Splint with Padding

Low heat thermoformable plastic comes in a variety of sizes and becomes fully mouldable after 3-5 minutes in the Slim Line Heater. Once pliable, simply form to the extremity, secure with vet wrap or equivalent for 4 minutes, until the splint is rigid.

- A fast and efficient replacement for traditional splints and casting kits
- Radiolucent and easy to trim to specification
- Reduces prep and application time

Caerus™ Splint with Padding	08-1980	5 x 25cm	from £5.89
	08-1985	7.5 x 30cm	from £9.57
	08-1990	7.5 x 66cm	from £23.97
	08-1995	7.5 x 91cm	from £26.88
	08-2000	10 x 33cm	from £10.52
	08-2005	10 x 66cm	from £27.96
	08-2010	10 x 91cm	from £31.19
	08-2015	12.5 x 33cm	from £12.45
	08-2020	12.5 x 66cm	from £29.77

Caerus™ Splint Slimline Heater

To be used in conjunction with Caerus™ Splints (Available in various sizes)

- An efficient replacement for traditional heating methods
- Heats up to 185°F
- Thermoplastic splints are made malleable in only 3-5 minutes
- Easily stored for use in-clinic or on the go

Caerus™ Splint Slimline Heater	08-2025	£79.99
---------------------------------------	---------	---------------

Vet-lite

Vet-lite Thermoplastic Casting Materials are the ultimate material for casting and splinting both small and large animals.

- Ultra-light material, making it ideal for birds and other exotics
- Can be reheated and reset multiple times, for proper limb placement
- Softens when immersed in hot water
- Mesh pattern allows for application of medications
- Radiolucency permits clear radiographs after casting or splinting
- Provides optimum ventilation

Vet-Lite Roll	08-1390	2" x 72"	£8.43
	08-1395	3" x 72"	£8.81
	08-1400	4" x 72"	£10.76
	08-1405	6" x 72"	£14.61

Delta-Cast® Elite Casting Tape

Delta-Cast® Elite is a lightweight, non-fiberglass but rigid cast, which is designed to offer easy application, combined with a high level of patient comfort. Ideal for both small and large animals.

- An extremely strong and lightweight cast tape
- Shapes easily to body contours, providing a wrinkle-free application
- High durability reduces the risk of cast breakdown

Delta-Cast® Elite Casting Tape	08-2750	5cm x 3.6m	£7.70
	08-2755	7.5cm x 3.6m	£10.33
	08-2760	10cm x 3.6m	£13.39
